TECHNICAL SKILLS

- **Design Tools:** Figma, Adobe XD, Sketch, Illustrator, Miro, Zeplin, InVision, Framer, Balsamiq
- **Research & UX:** User Interviews, Journey Mapping, Personas, Accessibility (WCAG), Usability Testing, A/B Testing, User Flows
- **Prototyping & System Handoff:** Wireframes, Interactive Prototypes, Design Systems, Component Libraries, Responsive Design, Developer Handoff
- **Product & Collaboration:** Agile/Scrum, Jira, Confluence, PRD Collaboration, Cross-functional Workshops
- **Platforms:** Mobile (iOS/Android), Web, Multi-device, Game UI (UMG/Slate), AI/Automation Interfaces
- **Basic Frontend:** HTML, CSS, JavaScript

EXPERIENCE

UX / UI Designer (Remote) June 2025 – Present
Escape AI *Indiana, USA*

- Designed intuitive user flows, wireframes, and high-fidelity interactive prototypes for emotion-aware features including Facial Mood Scanner, guided reflections, and 3D Inner verse modules.
- Conducted user research and usability testing, translating insights into actionable design improvements that enhanced onboarding, emotional engagement, and feature adoption.
- Built and maintained a design system and reusable components to ensure visual consistency, scalability, and efficient developer handoff.
- Created wireframes, mockups, and high-fidelity interactive prototypes using Figma and Sketch to validate user flows across mobile and web platforms.
- Collaborated closely with product managers, engineers, and AI teams, applying responsive design and accessibility (WCAG) standards to deliver inclusive, privacy-conscious experiences.

Product Designer January 2024 – May 2025
Valhalla Cybernetics *New Mexico, USA*

- Owned end-to-end UI/UX design for the "Life Tide" healthcare SaaS platform, designing intuitive dashboards and workflows for doctors and patients.
- Improved data visualization for health analytics, enabling quick insights and better decision-making for clinicians.
- Designed and iterated wireframes, high-fidelity prototypes, and interactive components using Figma, Sketch, React and JavaScript, validating feature flows and improving task completion speed and user satisfaction.
- Partnered with developers and compliance teams to ensure accessibility, responsive design, and adherence to healthcare regulations and data security standards.
- Defined and applied user flows, journey maps, and experience frameworks to ensure clear, accessible, and visually engaging interfaces.

Product Designer January 2020 – February 2023
Center for Dalit Women (CDWN) *Kathmandu, Nepal*

- Led design for interactive and user-friendly learning experiences for community programs, including "She Leads-Women Leadership Program" and "Inclusive Community Forest User Group" improving engagement for 500+ participants.

- Conducted field research, interviews, and usability sessions to translate community insights into accessible, bilingual (Nepali and English) design solutions.
- Created wireframes, prototypes, and user flows that improved navigation clarity and content engagement.
- Developed prototypes, wireframes, and bilingual (Nepali and English) training materials**,** iterating based on user insights to enhance usability and clarity.
- Collaborated with cross-functional teams and international partners to ensure design solutions met user needs, project goals, and cultural context**.**
- Maintained and evolved the organization's website, branding, and digital presence for consistent user experience.

UX / UI Designer February 2018– January 2020

Three Monks Pvt. Ltd. *Kathmandu, Nepal*

- Promoted from intern to full-time designer by delivering user-centered web and mobile interfaces for B2C and enterprise clients, ensuring intuitive navigation and strong visual hierarchy.
- Built reusable UI components and contributed to a scalable design system to support rapid development and consistent branding.
- Prepared design specifications and assets for developers, ensuring accurate, pixel-perfect implementation.
- Iterated designs based on feedback and internal reviews, learning best practices in user-centered design and interface development and applied basic HTML, CSS and JavaScript to test and validate interface behavior with development teams.

PROJECTS

Awashub – Freelance Product Designer

- Designed a responsive real estate platform enabling users to buy, sell, and rent properties with ease across desktop and mobile breakpoints.
- Applied a mobile-first approach to ensure intuitive navigation, effective search filters, and a minimalist visual hierarchy.
- Developed search filters, viewing schedulers, and saved-search flows based on insights from interviews and surveys.

Resume Tailor – Capstone Project (Team of 4)

- Worked as UI/UX Designer and Front-End Developer on Resume Tailor, a web application that simplifies resume creation by tailoring resumes to specific job descriptions.
- Designed an easy-to-use interface, job description analysis flow, personalized cover letters, real-time chatbot for guidance.
- Focused on creating seamless user interactions, clear workflows, and visually appealing layouts to help job seekers generate customized, professional resumes efficiently.

CERTIFICATIONS

User Experience Design Bootcamp – Career Foundry

- Completed the CareerFoundry UX Design Bootcamp, a rigorous 6-month, mentor-led program focused on user-centered design, usability testing, wireframing, and high-fidelity prototyping using tools like Figma and FigJam.
- Built a portfolio of real-world UX case studies, applying end-to-end design thinking from user research and journey mapping to responsive UI design under the guidance of senior industry mentors and career coaches.

EDUCATION

San Francisco Bay University, Fremont, CA

Master of Science in Computer Science (2023 – 2024)
